

*Tito Musyoki Rural Community Development Organization -
Bridging the Gap*

Greetings,

TM Ministries trusts that you are staying safe at home during this time when COVID-19 has almost taken total control of what we can and cannot do. It can be difficult sometimes to live lives confronted by fear, anxiety, panic, and hopelessness. It's kind of like watching a movie; but still different because we are playing a character.

The good thing is that we have not lost hope, and we have shown acts of kindness to many. TM Ministries Board Members wish to thank you for the support you have continually given by encouraging us, checking our updates, praying for us, and giving monetarily. Each form of contribution plays an important role in advancing the activities of TM Ministries.

The goal of TM Ministries is to improve the living standards of economically disadvantaged families in rural parts of Kenya. As part of that goal, TM Ministries has been raising money to help the people of Ngunyumu in Mwala, Machakos County in Kenya, to get clean and safe drinking water. We started raising money last year, and we are glad to announce that we met our target of raising \$23,000. The money will be used to drill a 230-meter-deep borehole (as recommended by a hydrogeological

survey), install a solar water pump, and purchase two storage water tanks. The money was raised through social media, friends, and grants. Thank you for your part in helping us achieve this goal. The work of drilling will start as soon as the restrictions due to COVID-19 are lifted.

Please follow us on Facebook for exciting updates on this project and many more.

Current Nyunyumu water point. (This is surface running water during the rainy season.)

Thank you, and God bless
