

## *Titos Musyoki Rural Community Development*

Greetings TM Community,

The year is off to a fast start. The cement floor/foundation of the church plant has been completed. Excavation of the foundation for the Kambusu Vocational Training Institute has begun and should be completed by the 1<sup>st</sup> of May. The excavation was much more extensive than anticipated. The mass amount of excavated dirt is being used to make bricks which will be used for the construction of the walls. Ruth was able to borrow a gas-powered brick making machine from the government. We have attached pictures of the brick making machine and the bricks below.

In May the drilling of the wells in Itheuni and Muumoni will begin. We are expecting the wells to be completed by the end of May. After the well was drilled in the Ngunyumu, the community saw a huge transformation. We are expecting the same results after the two new wells are installed. Clean water essentially eliminates dysentery which is the number one cause of death. Food security is improved by irrigating planted crops which ensures a harvest at the end of the season.

Radiant Church in Kalamazoo funded the well in Itheuni. Karen and I will be leading a mission team to Kenya from Radiant Church at the end of July. We will be dedicating the new wells. A medical clinic and a vision clinic will be conducted simultaneously. The medical exams will be conducted by fifth- and sixth-year medical students from the University of Nairobi. The eye exams will be conducted by Doctors Glen and Chad Linsley. Glasses will be dispensed to those in need.

The mission team will be attending church at the Ngunyumu church plant. The gospel message will be shared during the church service, the well dedications and after the health clinics. Please for pray for the Holy Spirit to move hearts. Saving souls is by far the most important part of our mission.

We thank God for his provision thus far and look forward to many more blessings in the future. Also, a special thank you to all who pray for and donate to T.M. Ministries.

Ngunyumu Church floor/foundation
